## LIVELY MEETING OF THE CITY COUNCIL

**That Sunday Closing Ordinance Still a Bone of Contention---Body Adjourned in Confusion.**

The City Council met at 8:15 o'clock Tuesday evening, with the following present: President Broome, Aldermen Colclough, Goodwin and Phifer.

Upon motion of Alderman Goodwin Ordinance No. 179, regarding care of jacks and stallions, was placed upon its first reading, and adopted.

Alderman Goodwin moved to waive the rules and put the ordinance on its second reading, which was carried, and the ordinance was adopted as a whole on second reading.

Ordinance No. 181, being an ordinance entitled "An Ordinance Amending Section 1 of Ordinance No. 177, 'To Preserve the Peace and Morals of the City of Gainesville,'" was read, and upon motion of Alderman Goodwin adopted.

Alderman Goodwin moved to waive the rules and place the ordinance on second reading. Carried.

Section 1 was read and amended by substituting the State law, and exempting druggists. Amendment adopted.

Section 2 was read and adopted upon motion of Alderman Goodwin. Alderman Phifer moved to adopt as a whole on second reading. Motion carried.

Alderman Phifer moved to waive the rules and put ordinance on its third reading. Roll was called and every member voted "I." Motion carried.

Ordinance was read, when Alderman Phifer moved to adopt on third reading. Roll was called, and all voted "I" except Alderman Colclough,

who voted "no," and the motion was lost.

Upon motion of Alderman Goodwin, council adjourned.

### An Unsatisfactory Meeting.

It is said that the meeting of Tuesday proved a most unsatisfactory one, especially at the end, when Alderman Colclough voted against the passage of Ordinance No. 181, familiarly known as the "Sunday Closing Ordinance," thus preventing the ordinance from being passed and becoming a law immediately. This means that the lid will be on tight for another Sunday, much to the dissatisfaction of those who are directly interested, as well as a majority of the general public.

In order to waive the rules for any purpose, it is necessary to secure a majority vote of the council, which is composed of seven members. There were only four members present at this meeting which meant that every vote must be cast in favor to waive the rules, and this Alderman Colclough blocked by declining to cast his vote in favor; thus the final passage of the ordinance was suddenly checked by his action.

### Ordinance as It Stands.

So much discussion and comment has this famous ordinance caused, the same is herewith published for the information of the public. This is a copy of the ordinance as it now stands, and which has created so much opposition and dissatisfaction by many of the business men, who claim it is partial:

"An Ordinance to Amend Section 7 of an Ordinance Entitled 'An Ord-

nance to Preserve the Public Peace, Good Order and Morals of the City of Gainesville, and to Provide Penalties for the Violation Thereof.'

"Be It Ordained by the Mayor and City Council of the City of Gainesville, Fla.:

"Section 1. That Section 7 of an Ordinance entitled 'An Ordinance to Preserve the Public Peace, Good Order and Morals of the City of Gainesville, Fla., and to Provide Penalties for the Violation Thereof,' be and the same is hereby amended to read as follows:

"The sale, exchange, barter or hire of any goods, wares, merchandise or chattels on Sunday by a merchant, shop-keeper or other person in trade except as hereinafter allowed, is hereby prohibited under the penalty as hereinafter prescribed.

"Merchants, shop-keepers and others engaged in trade may, in case of emergency or necessity, sell and dispose of the comforts and necessities of life to customers and travelers, but without keeping open doors.

"Drug stores and apothecary shops may keep open their places of business from 8 o'clock to 10 o'clock a. m., and from 2 o'clock to 4 o'clock p. m., on Sunday, for the purpose of filling prescriptions and supplying those in need of medicines with the same.

"News dealers may open their places of business for one hour on Sunday, after the arrival of the mail from the North, for the purpose of selling and delivering newspapers and periodicals.

"Hotels, keepers of boarding-houses, restaurants, and manufacturers of ice, and dealers in milk, and livery stables, shall likewise be exempt from the provisions and penalties of this ordinance.

"Any person violating the provisions of this section shall, upon conviction before the mayor, be fined not exceeding fifty dollars, or be imprisoned not exceeding sixty days.

"Section 2. All ordinances or parts of ordinances in conflict with this ordinance be and the same are hereby repealed.

"Passed by the City Council of the city of Gainesville this seventh day of May, A. D. 1909."

The above ordinance was submitted to and approved by Mayor Horatio Davis on May 8, 1909.

### Alderman Goodwin's Views.

Alderman J. A. Goodwin, chairman of the ordinance committee, in an interview Wednesday admitted that the ordinance as it stands is discriminating, and desires it understood that he voted against the fourth and fifth paragraphs as amended from the original ordinance, the original being fair and impartial to all.

The fourth and fifth paragraphs in the original instrument as presented for the approval of the council were as follows:

"Drug stores and apothecary shops may keep open their places of business on Sunday, and may sell drugs and medicines, and such articles of merchandise as are usually kept for sale by druggists.

"Newspapers, books, writing materials, soda water, ice cream, cigars, cigarettes and tobacco may be sold on Sunday, if sold in drug stores, hotels, restaurants and news stands."

The original ordinance also exempted ice manufacturers and dealers in milk from the provisions as prescribed.

The ordinance as amended and presented for action of the council was a copy of the State law, with local modifications, and should it have been passed, would no doubt have proved satisfactory to all concerned, as it would have made an impartial law.

## NEW PENSION MEASURE DISCUSSED BY SENATE

**Senator Crill's Pure Food Bill Passed By Senate. Important Measure in House.**

TALLAHASSEE, May 19.—Discussion over the general pension bill reported by the pensions committee, occupied nearly all of the morning session of the Senate yesterday. The consideration of the measure was not brought to a conclusion, and finally went over to today. The principal change from the present law lies in the provision that only veterans owning less than \$5,000 worth of real estate and personal property shall receive pensions. Chairman Baker of the committee expressed the belief that the pension tax could be held down to 4 mills under the proposed law, if it is adopted unchanged.

Senator Crill's bill which is designed to cover all defects in the present pure food and drug act, was passed by the Senate during the morning.

### Routine Proceedings.

On motion of Senator Massey, the Senate proceeded to the consideration of bills on third reading.

Senate Bill No. 88, by Dayton—To provide for the temporary transfer of money from one county fund to another. Lost, 14 to 13.

Senate Bill No. 14, by Dayton—For relief of George R. Carter, sheriff of Citrus county for loss of fees amounting to \$2,087.93. Passed, 19 to 4.

Senate Bill No. 136, by Cook—In relation to the entry of judgment and decrees on supercedas and appeal bonds against principles and sureties, and the issuance of execution thereon. Passed.

Senate Bill No. 315, by Dayton—To provide for clerical aid for the judge of the Sixth judicial district. Passed, 14 to 13.

As a special order the Senate then proceeded to the consideration of the Hosford pension bill.

An amendment was offered by Senator Buckman, striking out the qualification of less than \$5,000 real and personal property.

Senator Baker urged that the com-

mittee spent days of careful work on the measure.

Senator Humphries stated that in the State's present condition the really needy and not simply the deserving should receive a pension.

Mr. Buckman spoke in favor of changing the property qualification, so that only veterans having a gross annual income of less than \$600 should be made eligible.

Senator Harris made an eloquent speech in favor of retrenchment and of the bill under discussion. While paying highest tribute to the aged veterans, he pointed out that the pension roll is increasing at the rate of two a day under the present law. He held that under the proposed law the pension millage could be held down to four.

After hearing the arguments Senator Buckman withdrew his amendments.

Senator Johnson charged that under the present law deserters have swapped proofs, and by this means got on the pension roll.

The Senate then decided to continue consideration of the matter today.

At the night session the Senate considered and passed many local bills.

### THE HOUSE.

After a lengthy discussion the House passed by a vote of 55 to 1 the Farris bill, which places the assessmen of railroad, telegraph and sleeping car properties in the hands of a commission to be composed of the Comptroller, Attorney-General and the President of the Railroad Commission. Under the existing law this work virtually rests upon the Comptroller entirely.

One of the most important measures introduced was that by Mr. Farris, which provides that in certain cases counties shall provide free school books.

### The Hyde Company.

This big store has been exceptionally busy this week and there's little doubt when the values they are offering are taken into consideration.

The writer has been in this store several times this week and was amazed at the large throng of eager and pleased customers who were making liberal purchases. Today's Sun has another of their attractive advertisements for special Friday and Saturday selling, and no lover of economies should fail to read it.

## Democrats and "Progressives" Combine on Bill

WASHINGTON, May 19.—That there will be a sharp contest in the Senate over the proposition to refer to the judicial committee the amendment to the tariff bill introduced by Senator Bailey, providing for an income tax, is indicated by a coalition of the Democrats and some of the "progressive Republicans," which became known yesterday.

Unquestionably the vote will be close, probably the closest that will occur in the making of the tariff bill.

The Democratic strength in the Senate is thirty-one votes, all of which are pledged to support the amendment. Mr. Bailey is counting

upon sixteen or seventeen Republican votes to secure the adoption of the amendment, and it is said that some of the "progressives" have assured him that they can deliver that many. Fifteen would be sufficient if the Democrats vote solidly for the amendment. The plan as agreed upon by the Democrats and "progressives" is to provide for a flat tax of 2 or 3 per cent upon incomes above \$5,000 of corporations above the figure named. In order that there shall be no double taxation of individuals provision will be made for deductions where the tax upon corporations' stock has been paid through the corporation itself.

## Organized Plan Against Negro in Railroad Work

ATLANTA, May 19.—That an organized movement to eliminate negroes as industrial factors in railroad work in the South is under way, was the statement made yesterday by Thomas K. Scott, general manager of the Georgia Railroad. Last night between fifty and seventy-five white firemen of the Georgia Railroad struck because the road refused to dismiss its negro firemen.

"This strike," said Mr. Scott, "is the first step of a movement which is planned to eventuate in the abolition of the negro as an industrial factor. It is the skirmish of the Brotherhood of Locomotive Firemen and Engineers in its plan to drive the negro out of employment on railroads altogether."

"The plan has been smoldering

for five years. This strike on the Georgia Railroad is just the first step. I have reason to believe that the same demand will in time, be it soon or late, be made by officials of this firemen's union upon every other railroad in the South."

### Forty Augusta Firemen Out.

AUGUSTA, Ga., May 19.—Forty Augusta firemen are affected by the Georgia Railroad strike. A meeting was held yesterday afternoon at Odd Fellows Hall, but nothing was done. All the Georgia trains are running on time. Pending the arrival of A. P. Kelley from Atlanta no definite program has been mapped out.

Isn't there something which only a want ad. can do for you today?

## Scores of Angry Men on Trail of Girl's Assailant

ALBANY, Ga., May 19.—Two hundred men are scouring the country surrounding Albany in search of a negro who attacked the 16-year-old daughter of Ed Strickland, night watchman at the Albany Foundry and Machine Works in the northeastern part of the city yesterday evening.

The girl was dragged from the road

into a field and the negro threatened that if she resisted him he would go to her home in the night and burn up the whole family while they slept. She succeeded in getting away from him by struggles and screaming and hurried to tell her father of what had happened.

A lynch is feared if the negro is caught.

### TRANSPLANTING PALMS.

Mr. Blanc Gives Directions as to How  
Work Should Be Done.

Editor Sun: The cabbage palmetto (Sabal palm): This variety of the palm family is rather sensitive to the process of transplanting and never reaches the size afterward which they attain if not handled at all. The cause is to be found in their slow growth. As the plant will have to form entirely new roots it is best to remove the old roots and cut them off close to the plant. The formation of new roots will take from 12 to 14 months. It is advisable to select for transplanting well-sized trees from

## The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

12 to 20 feet high as the same have more sap to sustain them during the formation of new roots.

The planting out of small palms, of which I notice so much in the city, is risky and seldom succeeds, as mostly this small tree, after exhausting the small quantity of sap, will die. It is important in taking up the tree to be careful not to strain or bend the same, especially the top bud. The using of crowbars, etc., to lift or move the tree at the root part of the same is to be avoided, as the slightest bruise will cause fermentation, and the loss of the plant.

A very plausible way is to plant five or six of the palmetto seeds in the place where the tree is wanted. The same will come up within several months and in two or three years make a very pretty plant. This way is the surest to raise this palm. Small plants can be bought in nurseries, the same being usually in flower pots—can be planted without taking the roots off and will grow right on.

In transplanting this palm care should be taken not to set them too deep in the ground, as no roots will form except on the places where the old roots are cut off. Planting too deep will invite wood lice, borers, etc. Pack the soil firmly around the roots, and give a bucketful of water, fill up the hole, pack again and give 1 to 2 more buckets of water. Make a dike around the tree to hold water for later watering and mulch well to keep the moisture, and keep the soil cool. One or two stout sticks will add greatly to keep the tree from being blown and loosened in the ground.

A great mistake is made generally to give these palms too much water while there are no roots to take up the same. This will cause decay. Any soil moist enough to germinate seeds will be sufficient moist to form new roots.

I deem it unnecessary to go into the physical construction or chemical composition of this particular palm, as this would require a knowledge of botany, which is not generally understood. The above article is meant only as a guide for those contemplating the transplanting of these palms.

## GAINESVILLE TO HAVE A BIG CONVENTION

STATE PHARMACEUTICAL ASSO-  
CIATION TO CONVENE HERE

June 9 and 10, When One of Largest  
Crowds of History of Associa-  
tion Will Attend.

Gainesville will have the honor and pleasure of entertaining another convention during the coming month, which will place her one notch higher in the distinction of being termed a convention city.

The Florida State Pharmaceutical Association, which is composed of a large majority of the druggists of the State, and which is regarded as one of the most intellectual societies in Florida, will convene here for two days, June 9 and 10, at which time it is expected that one of the largest crowds will be in attendance, all indications pointing this way. A number of the members have written that they expect to be accompanied by their wives, which will make the occasion all the more successful from a social standpoint.

On June 8, one day prior to the meeting of the Pharmaceutical Association, the State Board of Pharmacy will convene here for the purpose of conducting an examination, and indications are that quite a number of applicants will be present. Under the law of this State, no person is permitted to dispense drugs or fill prescriptions without having passed a successful examination of this board.

### Will Have Fine Program.

The local druggists, with a view of making arrangements for entertaining those who attend this convention, have formed an association, of which W. M. Johnson is chairman and John P. Ambrose secretary. This local association has already sent out a large number of invitations to the druggists of the State, urging them to be present, and assuring them of "a time which they will never forget."

An interesting and entertaining program is being arranged, concluding with a banquet, which will be published later.

### A CORRECTION.

Error in Report Court Proceedings  
Which Reflected on Mr. English.

J. W. English, the vegetable grower of Tacoma section who is well-known throughout the county, writes The Sun the following:

"I see in your paper of the 14th inst. that your reporter made a mistake in the court proceedings, in the case of J. E. English, who was tried for forgery. The report read:

"Question asked first witness: 'Did you, on November 30, 1908, give this check to the defendant, J. W. English?'

"This should have read, 'J. E. English,' and you will please correct this through your paper and oblige."

The above is an error which is likely to occur in any printing office, the names and initials being so similar; but The Sun is pleased to make the correction.

J. E. English, the defendant referred to, was a colored man.

## CRAIGHILL FAMILY LOST MANY CLOTHES

WEEK'S WASH GIVEN TO NEGRO  
WOMAN STOLEN MONDAY.

Express Helper Arrested and Spent  
Night in Jail, But Proved His  
Innocence and Was Released.

As the result of the confidence of a negro washwoman and the carelessness of an express helper on the Ocala-Jacksonville train, coupled with the probable laziness of the former, the family of Rev. Francis H. Craighill are minus one week's wash to the value of several dollars, and the woman, Sallie Harding, is at a loss to know where they "are at."

From what could be learned Sallie gave the clothes to the negro helper Monday night, who promised her to take them to the junction of the A. C. L. and Seaboard at the foot of West Main street and leave them, thus saving her the labor of taking them herself. Sallie, with a desire to be relieved of the burden of carrying them, gave the man the basket containing the clothes, but when she reached the spot designated discovered that the basket was not there, when she became greatly excited.

The woman reported the incident to Dr. Craighill, who subsequently approached Sheriff Ramsey, and on Tuesday night the helper was arrested and placed in jail. He protested his innocence, however, and declared he could prove that he put the basket off as promised. Sheriff Ramsey gave him an opportunity, and upon arrival of the train from Ocala Wednesday morning the negro proved by reputable witnesses who were in the car at the time that the basket was left at the crossing.

The negro was released and the case so far is a mystery. It is probable that someone stole the basket between the time of its being put off and the arrival of the woman in the custody of whom it had been placed.

### THE CIRCUIT COURT.

Wednesday Was a Dull Day, Only  
Few Cases Being Disposed Of.

Wednesday's session of the Circuit Court was a very dull one, only a few civil cases of minor importance being disposed of. The civil docket, in one way or another, has been about cleared for the term, and the probabilities are that court will adjourn today until the first Monday in June, being June 7. At that time the criminal docket will be taken up, and the cases of Davidson and Kelley and Duncan Jordan, all being charged with murder, will be disposed of.

The case of the State vs. the Martin boys and George Powers, charged with rape, has been set for June 12.

### Card From Mr. Dolan.

To the Patrons of Mr. J. S. Goode and the General Public: I have this week tested thirty-nine head of milch cows with tuberculin toxin, the regular test applied for the detection of tuberculosis in cattle, and found no elevation of temperature in these thirty-nine head of cattle to indicate any tuberculosis or sufficient rise of temperature to justify any one of these thirty-nine head of cattle to be held for further test.

(Signed) A. DOLAN,  
Veterinarian.

I take this means of thanking the clever and obliging Mr. Copeland and wife for their kindness and assistance to me during my stay out at the dairy; and not only Mr. Goode, but his patrons can feel assured that every precaution is taken to give them pure sweet milk which cannot be surpassed.

## INSPECTING ENGINEER'S REPORT ON T. & J. RY.

TRACK SHOWS AN IMPROVEMENT  
AT SOME PLACES.

The Road Seems to Be Giving Its  
Patrons a Satisfactory Freight  
Service at Present.

Frank P. Damon, inspecting engineer, has submitted to the Florida Railroad Commission the following report of the condition of the Tampa and Jacksonville railway:

"Tallahassee, May 14, 1909.  
"Hons. R. Hudson Barr, Chairman;  
Newton A. Blitch, Royal C. Dunn,  
Commissioners.

"Gentlemen—In my report of inspection of the Tampa & Jacksonville railway made in the month of October of last year, I stated the condition of the track at that time, and made recommendations that were necessary to put the same in good condition.

"I find now that the repairs to ties that were being made are nearly all completed; some tie renewals have been made and there are a few ties along the line of road for continued renewals. The track shows an improvement in surfacing at some places noted on my last trip of inspection, and loose track bolts have been in part tightened.

"Their track would now average in fairly good condition if the light rail, with which it is now partly laid, was relaid with a good rail.

"In my report of last inspection I gave a statement in detail showing the part of road laid with this light rail, and as stated in that report, it is badly bent, showing a great many short bends and kinks.

"No renewals of rail have been made, and until this is done it is impossible to put the track in good condition.

"The road seems to give a satisfactory freight service with one train per day, stopping at numerous places along the line of road where freight is offered and delivering it the same day to connecting lines. They do not pretend to give a passenger service more than to carry one coach on either freight train; this coach is not in good repair, but it is not so much the condition of the coach as the de-

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys must, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

## EXPRESS CAR ROBBED IN SOUTH CAROLINA

ROBBERS KNOCK MESSENGER  
SENSELESS AND TIE HIM.

They Then Ride on the Train Into  
Augusta and Disappear—No One  
on the Train Knew It.

AUGUSTA, Ga., May 19.—Two robbers boarded Southern passenger train No. 17 at Warrenton, S. C., ten miles out, last night, got the drop on Express Messenger Thomas L. Muto, knocked him senseless with a piece of rubber hose, plucked his arms behind his back, took his keys, threw him into an empty express chest, locked him therein and ransacked the car at will.

The train makes up at Branchville and carries through express and mail from Charleston and Columbia to Augusta. E. C. Burrell, agent of the Southern Express Company at Augusta, states that the records show that the robbers secured about \$200. This is the first time on record that the express has been of such small amount. The average currency express thereon is \$2,500 to \$10,000.

The robbers rode into Augusta and left the train on Broad street, in the center of the city. No one on the train knew of the incident and the robbery was not discovered until the messenger was liberated at the station, negro porters who were to engage in unloading the express, having located the imprisoned man by his vigorous kicking within the box.

## A SQUARE DEAL AND A SQUARE MEAL

Here's a square deal for the people who can't eat a square meal without after pain and distress.

Go to J. W. McCollum & Co's. today and get a box of Mi-o-na tablets: the great prescription for indigestion and stomach troubles.

Take one, or if you suffering is intense, two tablets with or after meals and at the end of 10 days if you can't eat a square meal without distress go to J. W. McCollum & Co's. and get your money back.

That's where the square deal comes in.

But Mi-o-na is really a stomach up-builder of great merit; every day the makers receive more than a dozen letters from grateful people which state that after they had lost all hope Mi-o-na cured.

The quick and positive action of Mi-o-na on the stomach in case of gas, water-brash, sour stomach and heartburn is worth a lot of money to any sufferer.

Why not try Mi-o-na at J. W. McCollum & Co's. risk. Fifty cents buys a large box.

E. D. Howe, Gardner, Mass., says: "I suffered from severe pains in my stomach. I tried different remedies without relief; after using two boxes of Mi-o-na I found myself completely cured."

Mi-o-na is sold by leading druggists everywhere.

## THE NUMBER THIRTEEN.

Time Was When It Used to Be Considered Lucky.

Abstract science has done much in brushing away the cobwebs of popular superstition, and abstract science establishes the fact that thirteen in ancient times had quite a different meaning from the thirteen of today. Oriental people found in thirteen something divine and hence something good. Thus it is in the folklore of the Persians, the Indians and Hindus.

Old Testament Jews were of the same opinion, as Biblical students well know. Thirteen cities were especially dedicated to the priestly tribe; thirteen high priests descended from Aaron; thirteen kings sat in the high council of the ancients; on the 13th day of the month Nisan the preparations for Passover began, and the holy incense consisted of thirteen different odors.

It is well known that all the nations of the old world were in more or less intellectual rapport. The ideas of one tribe descended to the other. But it is certainly interesting to learn that the figure 13 had its sacred and divine meaning also in America of yore among the long since extinct tribes of the Incas and the Aztecs. The inhabitants of Peru counted seven days without any particular name in the week. Their year had seven times fifty-two days, or four times thirteen weeks. The father was compelled to support his illegitimate child to the thirteenth year. The Aztecs had weeks of thirteen days, each with a special name. Their century had fifty-two years, or four times thirteen. Their public archives were of circular form, with a sun in the center of each of the thirteen parts, and thirteen were their tribes.

## SHERIFF'S SALE.

Under and by virtue of an order and decree made and entered by the Judge of the Circuit Court of the Eighth Judicial Circuit of Florida, in and for Alachua county, in Chancery, dated May 12th, 1909, in a certain case therein pending wherein D. E. Martin is complainant and John Hampton and Lawyer Hunt are defendants, I will sell at public outcry before the court house door at Gainesville, Florida, on the 24th day of May, A. D. 1909, during the legal hours of sale to the highest and best bidder therefor for cash, the following described personal property, to-wit:

One cream-colored horse, named "Charlie"; one black top buggy, and one set of harness; said property to be sold as the property of Lawyer Hunt, one of the defendants in the above styled cause.

This May 13th, 1909.

Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

## THE HUMAN HAND.

Its Relation to the True Education of the Young.

No animal or bird can endure the extremes of climate like man or is at home in so many different parts of the world. A dog, it is true, will follow man anywhere, but only when food and shelter are provided. Nor can any other creature subsist on such a variety of food as man can digest. He flourishes on roots, herbs, grubs, insects, fruits or fish, on which flesh-eating animals would starve, or he is equally pleased with animal and bird flesh on which herbivorous animals would starve. He can pick nuts with the monkey, catch fish with the otter, dig roots with the wild pig, eat ants' eggs with the ant eater and grasshoppers with the snake.

And all this is due to man's hand. Because his hand could grasp a stone or a club man rose on his hind legs and walked and talked. His hand is the most wonderful of all tools. It twists like a monkey wrench, hangs on like a grappling hook, cracks like a nutcracker, picks like tweezers, tears like forceps, grubs like a gopher.

This brings us to the first great lesson of health and common sense. Man owes all to his hand. Train the child's hand, then answer the questions that the brain, which the hand builds, will ask, and you have true education—education at its best. Give children every kind of hand work that their play instincts call for—and their play instincts are the deepest and most useful in their nature—and then brain development will follow as naturally as the night follows day.—San Francisco Chronicle.

## It Gets the Criminals.

According to the Chinese method of criminal prosecution, a man is responsible for the crime he may have committed personally, but if he chooses to escape justice by running away from the place where the deed was committed then the remaining members of his immediate family are held and punished in lieu of the real culprit. This may seem a strange way of attracting the real criminal back to the scene of his crime, but it appeals to the religious side of the man's superstitious nature. According to their religion, the man who forsakes his parents when in peril will find his soul sailing around through hades without chart or compass for all eternity. In view of this, compliance with the law is very prompt, for John Chinaman does not care to take the desperate chance.

## A Happy Father

Best for disordered bowels and sour stomach—all teething babies need it. Pleasant to take, sure, and safe, contains no harmful drugs. Price 25 and 50 cents per bottle. Sold by W. M. Johnson.

## Our Neighbors.

"We simply must move," said his wife positively. "I can't stand this place any longer."  
"All right," replied her husband. "I know a flat we can get that, is \$5 cheaper than this one."  
"Well, I should say not. If we move into that the neighbors would think we couldn't afford to stay where we are."—Detroit Free Press.

S.S.S. CURES  
OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. Book on Sores and Ulcers and any medical advice free to all who write.

## The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

## GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Did Not Cover Entire County, But Benefited Many Sections.

For the first time in several months this section was visited by a refreshing rain Tuesday afternoon, which not only cooled the temperature, but proved of great benefit to the parching crops, which seemed to immediately take on new life.

This rain did not cover the county, but several sections where it was badly needed were favored. Reports from Hague and vicinity are to the effect that a good rain prevailed there, while Micanopy and vicinity enjoyed refreshing showers.

The rain came just at the proper time, as the farmers in the section visited were suffering great loss from the drought.

## COURT PASSES SENTENCE UPON MANY PRISONERS

**Wm. A. Bexley and Truby Osteen Sentenced to Serve  
Term of Nine Years in State Penitentiary.**

The morning session of the Circuit Court Tuesday was a most impressive and pathetic one, when William A. Bexley and Truby Osteen, the young white men tried for the murder of W. H. Moreland, a traveling man, which occurred in July, 1908, and convicted of manslaughter at the present term of the court, were sentenced to a term of nine years each at hard labor in the State penitentiary, amid a crowded court room which was made the more impressive by its silence, as the spectators, some friends of the defendants, others there through mere curiosity, awaiting the sentence of the court in a suspense which caused a minute to seem like five.

### The Prisoners Arrive.

The young men, by order of the court, were presented in the court room shortly before 11 o'clock. They were neatly dressed, as they have been throughout the trial, which was evidence that they came from good families. In the coat button-hole of Bexley was a handsome rose-bud of a cream hue, while the lapel of Osteen's coat was adorned with a delicate bunch of fresh pansies. The young men took their seats on the prisoners' bench immediately upon their arrival, and appeared to manifest an interest in the court proceedings.

### Commanded to Rise.

As the old clock in the tower tolled the hour of half-past 11—the hour at which the prisoners were to know their fate—Judge Wills abruptly stopped the proceedings in a civil case, and commanded the young men to stand up.

"You (calling each by name) have been indicted by the grand jury upon

a charge of murder in the first degree; you have been convicted of manslaughter. Have you, either of you, anything to say why the sentence of the law shall not be passed upon you?"

### Attorney Broome in Their Behalf.

Before the defendants had an opportunity to answer, Attorney W. S. Broome addressed the court. He spoke for several moments, and so attentive were his hearers that his remarks had evident effect upon all. Attorney Broome spoke feelingly of the youth of the defendants, touched upon circumstances in the case during the trial, referred to the past good character and record of both parties, reminded the court that both came from good families, and in conclusion made an eloquent and pathetic appeal to the court for leniency.

Both prisoners replied to the question of the court that they had always protested their innocence and still did so, asking the court in passing sentence to be as lenient as possible.

### The Judge Was Affected.

Judge Wills, in passing sentence, was visibly affected. He regretted very much the necessity which had fallen upon his shoulders of sentencing two young men to prison, which was his duty as an official, obeying the mandates of the law and the court. He spoke of having known the family of one of the prisoners for a generation, had always been on the most friendly terms with that family, which made the task all the more hard, but as judge of the court the duty had fallen upon him. He then pronounced the sentence as stated above.

Both Bexley and Osteen accepted the sentence as gracefully as possible un-

## WOMAN FOUND WITH SKULL FRACTURED

JACKSONVILLE, May 18.—Lying in a pool of her own blood, unconscious of the wails of her year-and-a-half old baby crawling over her prostrate form, Mrs. Julia B. Green, a widow, was found in the back yard of her home on Albion street, East Lewisville, about noon yesterday by a grocery boy, who had twice before called to get her order for the day.

Why the brutal assault was committed, or by whose hand, still remains a mystery, as the woman is now lying in an unconscious condition with a fractured skull in the county hospital.

Immediately after discovering the sad plight of the unfortunate woman, the young man reported the matter to Policemen Grooms and Harrison, who visited the scene and carried the woman into her house. Police headquarters was then communicated with, the ambulance sent to the scene and the woman removed to the hospital, where Dr. Joyner rendered medical attention.

About the house was found tracks which lead the police to believe that someone had chased the woman from the house, finally capturing her and striking the terrible blow which rendered her unconscious.

A thorough investigation was made in the house but what little money was found there showed that the assault could not have been committed for robbery.

der the circumstances, having hope that the Supreme Court, to which an appeal will be made, will grant them a new trial.

The court set the supersedeas bond at \$3,000 in each case, pending the decision of the Supreme Court upon the motion, and the young men will no doubt secure their release under these bonds within the next two or three days.

### Other Sentences Imposed.

The court on Monday afternoon requested the sheriff to have all prisoners convicted at the present term in the court room on the morning of Tuesday, as sentence would be passed upon them; but for some reason this order was changed, and the sentence was imposed upon Bexley and Osteen.

In the afternoon, by order of the court, the other convicted prisoners were arraigned, and the following sentences were recorded:

State vs. Edward Parker, selling liquor, four months in the county jail at hard labor.

Lydia Drake, selling liquor, eight months in the county jail at hard labor.

Silas Perkins, manslaughter, ten years in State prison at hard labor.

Henry Richard, manslaughter, ten years in State prison at hard labor.

David Walker, assault with intent to commit manslaughter, three years in State prison at hard labor.

Chas. Trapp, manslaughter, three years in State prison at hard labor.

Will Sparks, assault with intent to rape, seven years in State prison at hard labor.

### Other Court Matters.

There were other matters in the nature of civil cases which came before the court for disposition. A number of cases were continued for the term, while others were settled by trial before a jury.

At a late hour in the afternoon court adjourned until 9 o'clock Wednesday morning.

### Filling the Depressions.

A force of workmen were engaged Wednesday in filling in the depressions on the various streets made by the rain of Tuesday afternoon.

While this action will afford temporary relief, it is conceded poor economy, and it is hoped that some way may be provided by which the streets may be paved with more substantial material.

## NEW PENSION MEASURE DISCUSSED BY SENATE

**Senator Crill's Pure Food Bill Passed By Senate.  
Important Measure in House.**

TALLAHASSEE, May 19.—Discussion over the general pension bill reported by the pensions committee, occupied nearly all of the morning session of the Senate yesterday. The consideration of the measure was not brought to a conclusion, and finally went over to today. The principal change from the present law lies in the provision that only veterans owning less than \$5,000 worth of real estate and personal property shall receive pensions. Chairman Baker of the committee expressed the belief that the pension tax could be held down to 4 mills under the proposed law, if it is adopted unchanged.

Senator Crill's bill which is designed to cover all defects in the present pure food and drug act, was passed by the Senate during the morning.

### Routine Proceedings.

On motion of Senator Massey, the Senate proceeded to the consideration of bills on third reading.

Senate Bill No. 88, by Dayton—To provide for the temporary transfer of money from one county fund to another. Lost, 14 to 13.

Senate Bill No. 14, by Dayton—For relief of George R. Carter, sheriff of Citrus county for loss of fees amounting to \$2,987.03. Passed, 19 to 4.

Senate Bill No. 136, by Cook—In relation to the entry of judgment and decrees on supersedeas and appeal bonds against principles and sureties, and the issuance of execution thereon. Passed.

Senate Bill No. 315, by Dayton—To provide for clerical aid for the judge of the Sixth judicial district. Passed, 14 to 13.

As a special order the Senate then proceeded to the consideration of the Hosford pension bill.

An amendment was offered by Senator Buckman, striking out the qualification of less than \$5,000 real and personal property.

Senator Baker urged that the com-

mittee spent days of careful work on the measure.

Senator Humphries stated that in the State's present condition the really needy and not simply the deserving should receive a pension.

Mr. Buckman spoke in favor of changing the property qualification, so that only veterans having a gross annual income of less than \$600 should be made eligible.

Senator Harris made an eloquent speech in favor of retrenchment and of the bill under discussion. While paying highest tribute to the aged veterans, he pointed out that the pension roll is increasing at the rate of two a day under the present law. He held that under the proposed law the pension millage could be held down to four.

After hearing the arguments Senator Buckman withdrew his amendments.

Senator Johnson charged that under the present law deserters have swapped proofs, and by this means got on the pension roll.

The Senate then decided to continue consideration of the matter to-day.

At the night session the Senate considered and passed many local bills.

### THE HOUSE.

After a lengthy discussion the House passed by a vote of 55 to 1 the Farris bill, which places the assessment of railroad, telegraph and sleeping car properties in the hands of a commission to be composed of the Comptroller, Attorney General and the President of the Railroad Commission. Under the existing law this work virtually rests upon the Comptroller entirely.

One of the most important measures introduced was that by Mr. Farris, which provides that in certain cases counties shall provide free school books.

## Neeley Primary Bill Killed in the House

TALLAHASSEE, May 18.—After a debate lasting throughout the afternoon session, the House yesterday killed the Neeley general primary bill. This bill was made up from all of the primary bills introduced during the session by Mr. Neeley of Leon and eliminated the second primary besides making other sweeping changes in the present primary system.

The House went into committee of the whole to consider the measure, and when it emerged the bill was so

mixed up with amendments as to obliterate all semblance to the original and it was then easily killed.

During the morning session Speaker Farris introduced his inheritance tax measure.

Representative Kelley of Baker delivered an eloquent speech on the floor of the House and won the passage of his bill, making an appropriation of \$2,500 for the completion of the Olustee monument to the Confederates who lie buried on that Florida battlefield.

## Organized Plan Against Negro in Railroad Work

ATLANTA, May 19.—That an organized movement to eliminate negroes as industrial factors in railroad work in the South is under way, was the statement made yesterday by Thomas K. Scott, general manager of the Georgia Railroad. Last night between fifty and seventy-five white firemen of the Georgia Railroad struck because the road refused to dismiss its negro firemen.

"This strike," said Mr. Scott, "is the first step of a movement which is planned to eventuate in the abolition of the negro as an industrial factor. It is the skirmish of the Brotherhood of Locomotive Firemen and Engineers in its plan to drive the negro out of employment on railroads altogether."

"The plan has been smoldering

for five years. This strike on the Georgia Railroad is just the first step. I have reason to believe that the same demand will in time, be it soon or late, be made by officials of this firemen's union upon every other railroad in the South."

### Forty Augusta Firemen Out.

AUGUSTA, Ga., May 19.—Forty Augusta firemen are affected by the Georgia Railroad strike. A meeting was held yesterday afternoon at Odd Fellows Hall, but nothing was done. All the Georgia trains are running on time. Pending the arrival of A. P. Kelley from Atlanta no definite program has been mapped out.

Isn't there something which only a

## Throng of Women Leave Ab-dul Hamid's Harem

CONSTANTINOPLE, May 17.—Eighty women from Abdul Hamid's harem, richly dressed and veiled, were driven in carriages yesterday under the escort of four eunuchs and a troop of cavalry from the Yildiz palace to the Seraglio palace which has been unoccupied since 1924.

Curious bystanders were driven away from the exit of the Yildiz palace by a guard of soldiers. Following the carriage was a train of wagons with baggage. The Yildiz is being made ready for the admission of the public. Most of the former Sultan's slaves have been freed.

## Man Accidentally Drowned While Bathing in River

ELLAVILLE, May 17.—J. M. Glass was accidentally drowned here yesterday, while bathing in the river. He leaves a wife and several brothers, Mrs. Dr. E. Long of Macclenny, Mrs. Jim Bivin of Madison and Mrs. W. L. Horton of Ellaville, being among the latter.

Strange to say his father was drowned near Madison in identically the same manner just exactly one year ago, and his mother died two weeks ago from the shock of the drowning of the father.

The body was not recovered until 4 o'clock in the afternoon, although the drowning occurred at 11:30 a. m.

## DR. YOCUM RETIRES FROM ACTIVE WORK

HIS TEACHING CAREER TO END  
WITH PRESENT SESSION.

Other Interesting News Notes of the  
University and Experiment  
Station.

From Sunday's Daily Sun:

After many years of faithful service in the educational world Dr. Yocum has retired. At the conclusion of his work this session he will move to his orange grove and live quietly attending to the management of the grove. Dr. Yocum is too well and favorably known throughout Florida to need any eulogy at our hands. All of our readers will join us in wishing him a happy and peaceful life in his new surroundings.

Prof. John S. Thackston has been elected to fill the chair made vacant by Dr. Yocum's resignation. A sketch of Prof. Thackston's educational career will appear in the near future.

The U. D. C. medal was won this year by the University, the essay of Mr. Philip S. May of Quincy being adjudged the best of all submitted. Mr. May's subject was "The Record of Florida soldiers in the Civil War."

Dr. Sledd has been greatly in demand by the authorities of high schools as commencement speaker. He has recently spoken at the closing exercises of the schools in Brooksville and Plant City. Last Wednesday he addressed the high school graduates at Citra. He will make a similar address in Tampa on the 19th, and in Gainesville on the 21st.

A very interesting lecture, illustrated by well-performed experiments and lantern slides, was delivered before the students on Friday evening by Dr. John R. Benton, of the Department of Physics. His subject was "Optical Illusions."

Great interest is being shown by the students in the competition for the medals offered by Major Walker, commandant of cadets. One prize will be awarded to the best marksman, the other to the best drilled cadet in his battalion. The target range is at present one of the most popular places about the University.

The University wishes to thank publicly L. J. Burkheim of Gainesville for his liberality and interest in the institution manifested by the foundation of the Burkheim medal. This prize will go to the student who makes the best average grade for the year, and is open to competition by students in every department of the University.

During the past week the faculty has been honored by invitations to two receptions. Unfortunately the two receptions were on the same evening, and so it was impossible for all the professors to attend both. One was given at the home of Major W. R. Thomas by the Epworth Leaguers, the other was at the home of Mrs. Pitts.

The coming meeting of the Horticultural Society at Daytona will have several of the University and Experiment Station men on the program. Prof. Rolfs will tell "what the Experiment Station is doing for the Fruit and Vegetable Growers of the State"; Prof. W. L. Floyd will speak on "Peaches and Deciduous Fruits"; Prof. B. F. Floyd on "Yellow Spotting and Other Diseases of Citrus Due to Malnutrition"; Prof. H. S. Fawcett on Citrus Tree Diseases Caused by Organisms. Several ladies from the University circle will accompany these gentlemen to Daytona.

Prof. B. F. Floyd will make a short visit to DeLand in the interest of his investigations into citrus diseases.

The approaching commencement season bids fair to be extremely interesting. The main addresses by Dr. Dillard and Dr. Curry will probably be above the average. The students are working to make their part a success. It is hoped that the University will be complimented by the presence of many visitors.

Dr. Mahaffy of Jacksonville, the veterinary surgeon of the State Board of Health, is in Gainesville, inspecting the Station cattle for tuberculosis.

The committee from the Legislature to inspect the University and Experiment Station were well entertained by some of the leading citizens of Gainesville. Judge Carter of Marianna accompanied the committee. The investigation was made thoroughly.

## MARSHAL ARNOW GETS "TIGER" SATURDAY

EMANUEL JOHNSON WAS CAUGHT  
WITH GOODS ON HIM.

Has Long Been a Suspect But Was  
Always Very Clever in  
His Dealings.

From Sunday's Daily Sun:

Marshal Arnow is active after the "tigers" with the result that he landed another with the goods on him and relieved him of seven pints of "booze" Saturday night.

Emanuel Johnson was the negro. He has been suspected for some time but it was not until Saturday night that he was caught in the act of selling liquor.

Marshal Arnow was laying in wait and watching him when he saw Johnson deliver to a white man "a pint" and receive the money, after which he made the arrest and upon searching his wagon the marshal found that it contained seven pints of various brands of whiskey.

The negro was placed in jail and will be given a preliminary hearing before Mayor Davis Monday.

## IN MAYOR'S COURT.

Case of Emanuel Johnson, for Selling  
Liquor, Was Continued.

From Tuesday's Daily Sun:

There was a brief but interesting session of Mayor Davis' court Monday morning.

Emanuel Johnson, the colored man who was arrested by Marshal Arnow Saturday night in the alleged act of selling liquor in violation of the law, the officer finding in the body of a wagon belonging to Johnson several pints of the fiery water, was brought into court, but upon request of the defendant, who explained that he desired to confer with an attorney, the case was continued until Friday, and Johnson was released on bond.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 19 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. ## HENDERSON WRITES ON PEACH CULTURE

FEW SUGGESTIONS CONCERNING  
PLANTING AND FRUIT.

Many Sections of Alachua County  
Especially Adapted to Culture  
of the Peach.

This paper received the first prize offered by The Southern Ruralist of Atlanta in 1908. Revised and adapted to conditions in Florida, especially this section.

Experience and observation have taught me that the greatest mistake the fruit growers of Florida have made in the past is to plant too many acres, thereby sacrificing quality to get quantity of fruit.

There is much more profit in raising one crate of fruit that will sell for \$2.50 than there is in raising two crates that will only sell for \$1.25 each. The picking, packing, crates and freight will all be doubly as much on the common or low-grade fruit as on the fancy fruit, besides the two crates of low-grade fruit will damage your tree more than twice as much as the fancy fruit.

The most important question, then, for the peach grower is how to grow fancy fruit. This question I will strive to answer very briefly.

First: The selection of soil is very important. High, well-drained pine land, not too rich, is best. High-grade, highly colored and fine flavored peaches cannot be grown on rich damp soil. Hickory and red oak land will not grow good peaches in Florida.

Virgin soil is absolutely necessary in the sandy soils of Florida, and virgin soil is much better anywhere. There are thousands of acres of land in Alachua county well adapted to growing fancy peaches.

Much depends on the variety of peach planted. More failures have been made in Florida by planting Northern varieties of peaches than any other cause. Not one of the varieties of peaches grown even in Georgia will succeed here. The best varieties for this section of Florida are Jewel, Waldo, Florida Gem, Imperial and a few others of the Peento and Honey class of peaches.

Nearly all of the old Spanish or native varieties succeed here. Having selected the location and varieties, order from the nearest nursery or from an agent who knows his business and local conditions.

When ready to plant, which should be done from December 1st to February 1st, cut your trees back to about 16 inches, and cut off all the roots to one or two inches and plant just a little deeper than tree grew in the nursery. Cultivate well first and second year. Put from three to five pounds of fertilizer the first and second year of some good tree grower. After the second year put from five to ten pounds of a fertilizer analyzing about 7 per cent phosphate, 15 per cent potash and 2 per cent ammonia. Never plant any crop in the orchard after the first year and never plant melons or sweet potatoes the first year. Never plow deep after first year. I plant 15x20 feet and every third tree each way I put a grafted pecan of best varieties.

Keep trees well pruned and cut back and thin out your fruit till you think you only have a half a crop on the trees every year.

To keep out borers tie a band of tarred paper about twelve inches around the base of tree.

To prevent wormy peaches, destroy all wormy peaches that drop on the ground.

The San Jose Scale, the worst enemy to peach-growing in any section, is best overcome with red head and black fungus.

With these directions strictly followed you are sure to grow a fancy peach which will always bring a fancy price in any market.

F. P. HENDERSON.

## Rev. I. W. Williamson's Letter.

Rev. I. W. Williamson, Huntington, W. Va., writes: "This is to certify that I used Foley's Kidney Remedy for nervous exhaustion and kidney trouble and am free to say that it will do all that you claim for it." Foley's Kidney Remedy has restored health and strength to thousands of weak, run down people. Contains no harmful drugs and is pleasant to take. J. W. McCollum & Co.

# Answer This Question

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge the world to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has **Lydia E. Pinkham's Vegetable Compound**, the famous woman's remedy for woman's ills. Unless it is a very good medicine and the claims made for it are honest, such a record would have been impossible—fraud or misrepresentations would long ago have been detected and the business gone into oblivion. Read this unsolicited letter:—

Melbourne, Iowa:—"I suffered for many years with female troubles, inflammation, and bearing-down pains, so that I was unable to do my work."

"Lydia E. Pinkham's Vegetable Compound was recommended, and I am so thankful for the great good it has done me. I feel that I am a living advertisement for this medicine as I have influenced so many of my friends to use it, so thankful am I that it restored me to health."—Mrs. Clara Watermann, R. D. 1, Melbourne, Iowa.

When a woman like Mrs. Watermann is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women. For we assure you there is no other reason why she should court such publicity.

We say it in all sincerity and friendship—try this medicine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## VOTER MUST PAY HIS OWN POLL TAX

BILL TO THIS EFFECT WAS PASSED BY HOUSE.

Senator Taliaferro and Congressman Clark Wire Denial That They Are Using Passes.

TALLAHASSEE, May 17.—After much discussion the House Saturday passed the bill prohibiting paying of poll taxes by other than the voter for whom the tax is paid, and the bill requiring newspapers to mark all news, editorials and cartoons which are paid for as advertising matter. Five voted against the latter measure. Governor Gilchrist for the first time used his veto power. He submitted messages to the two houses vetoing the bill extending the powers of the city of DeLand and making void a bonding election held in that city. Constitutional grounds were given by the Governor.

### The Pass Question.

Considerable discussion has been made upon the report rendered by the committee appointed to secure the names of those officials to whom passes have been issued by the transportation companies.

A telegram was received from Senator J. P. Taliaferro denying that he has ridden on a pass since the passing of a Federal law. The telegram was spread on journal and referred to the committee investigating the report made by the committee consulting railroad commission books.

The following telegram was received Saturday afternoon by Speaker Farris from Hon. Frank Clark: Washington, D. C., May 15.—Hon. Ion L. Farris, Speaker Florida House of Representatives, Tallahassee, Fla.: I denounce as unqualifiedly and basely false any intimation by legislative committee or other persons that I have violated any law in use of railroad transportation in Florida or elsewhere. I defy these to institute proceedings here, there or anywhere. If they are honest and have proof, let them proceed. If they have not the proof, they are not honest, and dare not proceed. I ask this telegram be read to house.

"FRANK CLARK."

### THE SENATE.

Sixteen bills passed and one killed was the crop in the Senate on Saturday. The one that fell was the McCreary bill prohibiting log or lever carts from using the public roads except in certain cases.

Among those passed are the McMullen bill, creating a State Board of Dental Examiners, the Harris bill, permitting street railway companies to sell or lease both property and franchise to another company, the Adkins blind tiger law, and the Buckman bill concerning the transfer of stock of corporations for profit in certain cases.

### Funeral of James Pardue.

From Tuesday's Daily Sun:

The funeral of Mr. James Pardue, the sad death of whom occurred at Bay Biscayne, on the East Coast, on Thursday of the past week, the remains having been shipped here, was held from the home of N. Wells, son-in-law of the deceased, North Gainesville, Sunday afternoon at 2:30. Rev. S. B. Rogers of the First Baptist church conducting the sad but impressive ceremonies. The funeral was largely attended, many friends of the deceased gathering to pay their last sad respects to one whom they had learned to love and admire. Quite a number followed the remains to their final resting-place in Evergreen cemetery.

The floral decorations were numerous, being sent as silent tokens of esteem from various friends.

The funeral arrangements were in charge of Dr. T. F. Thomas, and the deceased, being a member of Stonewall Camp, U. C. V., the pall-bearers were selected from the ranks of Confederate veterans.

Relatives of the deceased have the sincere sympathy of the community.

### CURED IN ONE MONTH BY CUTICURA REMEDIES

"I am seventy-seven years old and one day, some years ago, I fell from a step-ladder, bruising my head. In a few days I could not walk. I called in a doctor and inside of a week erysipelas set in. The doctor had not cured me of that when I was taken with eczema from head to foot. I was sick for six months and what I suffered tongue could not tell. I could not sleep day or night because of that dreadful itching; when I did sleep it was from sheer exhaustion. I was one mass of irritation: it was even in my scalp. The doctor's medicine seemed to make me worse and I was almost out of my mind. I read of Cuticura and sent my wife to the druggist, who was a member of my lodge of Odd Fellows, for a set of the Cuticura Soap, Cuticura Ointment and Cuticura Resolvent. I used them persistently for twenty-four hours. That night I slept like an infant, the first solid night's sleep I had had for six months. I was not afraid to use plenty of Cuticura Ointment and Cuticura Soap with hot water and in a week's time I was able to put on my clothes again. In a month I was cured. From that day to this I cannot praise the Cuticura Remedies too highly. I may add that I have a very heavy head of hair which I owe to Cuticura. W. Harrison Smith, R.F.D. 2, Mt. Kisco, N. Y., Feb. 3, '08."

A single set of the Cuticura Remedies is often sufficient for the treatment of the most torturing, disfiguring, itching, burning and scaly humors, eczemas, rashes and irritations, with loss of hair, from infancy to age, when all other remedies fail. Guaranteed absolutely pure and may be used from the hour of birth. Cuticura Soap (25c), Ointment (50c), Resolvent (50c), and Chocolate Coated Pills (25c), are sold throughout the world. ### MISS TEBEAU'S SCHOOL.

Endorsed at the Annual Council of the Episcopal Church.

At the annual council of the Episcopal Church held last week in St. Augustine, Miss Tebeau's school of this city was endorsed and adopted as the official diocesan school for girls.

A board of visitors was elected, consisting of the Bishop as chairman, two clergymen, and two laymen, so the connection between the church and the school will be even closer than in the past. The clerical members of the board are Rev. William Wyllie of Palatka and Rev. F. H. Craighill. The laymen are Col. W. W. Hampton and Mr. F. M. Williams.

This change will doubtless considerably increase the enrollment of the school, particularly in the boarding department, and will add to the reputation of Gainesville as a city of schools.

The Legislative committee which recently inspected the University, visited also Miss Tebeau's school, and expressed themselves as highly pleased with the high character of the work done and with the great beauty of the grounds.

### MELROSE NOTES.

MELROSE, May 17.—Rev. B. R. Moseley and family have moved into the house of Rev. Julian.

Among those who have gone North for the summer are Rev. Julian and family and Mrs. A. Grimes.

Rev. C. E. Hedrick and Mr. A. Curry officiated at the services at Trinity church last Sunday. Agreeable to the Governor's proclamation, the decorations were of white roses only.

Two good showers fell on Sunday. They were much appreciated by our farmers.

The "Santa Fe" took quite a crowd over to the canal on Friday to enjoy a fish fry and to pick blackberries, which are very plentiful on the canal banks.

M. J. Beckham and family of Windsor were visitors at N. C. Wilson's last week.

The Melrose station of the East Florida Telephone Company at A. A. McRae's is now in fine working order and is doing quite a business.

## ALACHUA DIRT IS STILL ON THE MOVE

LARGE NUMBERS OF TRANSFERS RECORDED PAST FEW DAYS.

General Conditions Throughout County and Activity in Gainesville Responsible for State Affairs.

Notwithstanding the fact that spring as a usual thing ushers in the dull season in all commercial and business branches with the exception of the ice and cold drink man, it is gratifying to note the continued interest manifested in real estate, as the numerous transfers are strongly indicative of the confidence of the people in the future of Gainesville and Alachua county. This may be attributed largely to the general prosperity throughout the county, together with the activity of building in the city. A large number of contracts are either under way or will begin soon, which means that Gainesville will prove a busy place during the entire summer. This fact invigorates the progressive mind, with the result that real estate transfers are being continuously recorded.

The following is a list of recent transfers, as taken from the records in the office of Clerk of the Court S. H. Wienges:

From Tuesday's Daily Sun:

Dr. J. Harrison Hodges, a member of the State Board of Medical Examiners, expects to leave today for Tallahassee, where the board will conduct the spring examinations for applicants for license to practice medicine in Florida. Two examinations are held annually—one in the spring, the other in the fall.

The people of Florida have little idea of the rapidly increasing membership of the medical profession in Florida. Dr. Hodges states that from fifty to sixty applicants come before the board for permission to practice at each meeting.

Almost time to hear from the delegation from Volusia again.

The rains of the past two days came as a blessing to the farmers and truckers of this section.

Gainesville is well represented at the meeting of the State Horticultural Society at Daytona this week.

The commencement exercises of the Gainesville High School begin tonight. Every patriotic citizen should attend.

There's no mistaking the meaning of Congressman Clark's telegram to Speaker Farris of the House of Representatives relative to his riding on passes.

When we read of jealous or other people murdering sweethearts and wives and then committing self-destruction we cannot but wish that the suicide had come first. It would save in each case at least one life.

The endorsement and adoption by the council of the Episcopal Church of Miss Tebeau's School as the official diocesan school for girls is a great compliment to that institution and will be the means of making Gainesville even more prominent as an educational center.

A fire in the general warehouse of the Seaboard Air Line at Portsmouth Sunday destroyed property amounting, by estimation, to \$150,000. The Seaboard has been having more or less bad luck the past few years, and it is such misfortunes as this that keeps the system in poverty row.

The total number of immigrants into the country since 1820, the year of earliest record, exceeds 26,000,000. In 1900, the date of the last census, the total number of persons of foreign birth living in the country was 10,460,000 which was 12.7 per cent of the total population, while in 1890 they formed 14.8 per cent.

The jury in the case of William Adler, president of the defunct State National Bank, who was charged in the United States court at New Orleans with misapplying the funds of the bank, Friday brought in a verdict of guilty. Indictments against Adler embraced 84 counts, and charged him with misapplying, embezzling and abstracting the funds of the bank to the amount of more than a half million dollars. He was found guilty on the counts which charge misapplication.

Capt. Peter C. Hains, convicted of manslaughter on the charge of killing William E. Annis, has been sentenced to serve an intermediate term of from eight to sixteen years in prison, the sentence simply reading "at hard labor in the State's prison." The widow of Annis, in speaking of the verdict, said: "We didn't clamor for Capt. Hains' life. All we wanted was justice, and I believe the verdict of the jury is convincing proof of the great wrong Capt. Hains did when he robbed my children of their father. No one has a right to take life and make innocent people widows and orphans."

## HELEN BOYLE'S ADVICE.

Broken in spirit by her twenty-five year sentence, Helen Anna McDermott Boyle gave out an interesting view this afternoon, says The Baltimore Sun of May 10th. In part she said:

"My mother died when I was a baby. I think there was some fatality about it all. For when she was born, my grandmother gave her to my great grandmother. When my mother died, my grandmother came. They say she looked at her and said, 'Well, you came and you were not wanted, and now here is your baby, and she'll live to see the day she wishes she had never been born.'"

"And it's here," she said, rising and walking away to hide the tears. Then she turned sharply. "And now that all this has come to me, I want to say something to the parents of other girls who can make life right or wrong for them," she said. "I had a good home and everything that the average girl has—perhaps more. But I was full of life, full of bubble. I was emotional, I wanted to be petted—to go, to be admired. And my father, who says he loved me more than all the rest of his children, didn't understand. So I left home, and then you know I was pretty. I don't know how it is. My features are far from perfect, but somehow there was something that made men admire me and women hate me. And then the temptations, and the people who kick you down when you are young and helpless and even when you try to do the right thing."

"So I want to say to the mothers and fathers, 'Live with your children, not just for them. Grow up with them again. Do what they want to do. If they want to go out to seek cafes and bright lights and shows, go with them. Don't let them go out much with men alone.'"

"And if you can't afford to take them, then make it pleasant at home and get them interested in something. And, most of all, don't nag, don't scold—that's awful, awful, awful."

## GARBLED NEWS.

In Friday afternoon's Jacksonville Metropolis appears the following in its Tallahassee correspondence:

"In the Senate yesterday there was a lively tilt between Senators on the uniform text-book bill. Senator Dayton of Pasco asked leave to call up a bill out of its regular order, and the supposition being that he wanted to call up some measure of his own, no objection was made. Instead, however, of doing this, he called up the bill introduced by Senator McCreary, on the subject of uniformity by county adoption. As there are other uniform text-book bills on the calendar, one of them being set for special order for Monday, a fight was made then and the debate threatened to become acrimonious. Senator Cone of Lake City, who is quite an accomplished tactician, moved that this bill be made a special order for the same time as his bill on the same subject, and finally succeeded in carrying the motion, since which there has been a perceptible fluttering among the occupants of that dove-cote known as the lobby, a hurrying and scurrying hither and thither as of creatures disturbed by scenting a storm from afar. If the vote yesterday making this bill a special order was any test of strength there is no doubt that the bill will pass the Senate and it is likely that it will have votes to spare as several Senators who are thought to be friends of the measure and who were absent will be here Monday afternoon."

Now what are the facts? The official Journal of the Senate of Thursday shows the following proceedings: Mr. Dayton moved to waive the rules and that Senate Bill No. 2 be taken up and considered.

Which was agreed to by a two-thirds vote, and—

Senate Bill No. 2:

A bill to be entitled an act to secure to the people of Florida school text-books at reduced prices; to provide special editions of said books at low prices; to empower county boards of public instruction to adopt such books, if desired; to authorize county boards of public instruction to make contracts with publishers; to provide for the filing of contracts; to provide for children who may move from one county to another; to provide a penalty for any dealer, clerk or agent who may sell school text-books at greater price than the contracts entered into between boards of public instruction and publishers, and

## Some Alcohol Questions

Is alcohol a tonic? No! Does it make the blood pure? No! Does it strengthen the nerves? No! Is Ayer's Sarsaparilla a tonic? Yes! Does it make the blood pure? Yes! Does it strengthen the nerves? Yes! Is it the only Sarsaparilla entirely free from alcohol? Yes! Ask your doctor about this non-alcoholic medicine. If he approves, your confidence will be complete. J.C. Ayer & Co., Lowell, Mass.

Dull boys! Dull girls! Dull men! Dull women! Heavy-headed! Downhearted! All very often due to constipation! Yet the cure is so easy—Ayer's Pills. Ask your doctor.

for other purposes.

Was taken up and was read the third time in full.

Mr. Cone moved to indefinitely postpone Senate Bill No. 2.

Mr. Williams moved to amend that the bill be laid on the table subject to call.

Which was not agreed to.

The question recurred upon the motion to indefinitely postpone the bill. Upon which the yeas and nays were demanded.

Roll was called and the vote was: Yeas—Mr. President, Senators Broome, Cone, Girardeau, Leggett, McLeod, McMullen, Withers—8.

Nays—Senators Adkins, Beard, Buckman, Davis, Dayton, Harris, Henderson, Hosford, Humphries, Johnson, McCreary, Sams, Sloan—13.

Mr. Cook announced that he had paired with Mr. Baker, of the 29th District. That if Mr. Baker, of the 29th District, were present and voting that Mr. Baker would vote for the passage of the bill and he (Mr. Cook) would vote against it.

So the Senate refused to indefinitely postpone the bill.

Mr. Cone moved that the further consideration of the bill be deferred to Monday at 11 o'clock.

Which was agreed to and so ordered.

It will be seen by this that the statement in The Metropolis is absolutely at variance with what actually did occur. The paper, as is well-known, is in favor of saddling on the people of Florida the State uniformity octopus, and is coloring its news accordingly.

The mission of a newspaper is to tell the truth, the whole truth, and nothing but the truth. In the face of the record, which must necessarily be a correct account of what transpired, how does the report in the Jacksonville paper stand?

The only lobby that appears to be in existence is that for State uniformity, and it seems to be getting in its work with some of the papers, especially in view of the statements made two years ago in a hearing before the Joint Committee of Education of the two houses by a prominent citizen of Florida: He said that "the money to defray the expenses of sending persons through the State seeking to find, if he could, information in favor of his position, had been paid by agents of Ginn & Co. and Heath & Co., both school book publishers," and this statement was published widely in the newspapers at that time.

Stop garbling the news. Print things just as they happen, and no one will be deceived.

## OFF TO DAYTONA.

Another delegation left yesterday via the Atlantic Coast Line for Daytona, where they go to attend the annual meeting of the Florida State Horticultural Society, which convened in the City-by-the-Hallifax Tuesday night.

Those comprising this delegation were Prof. H. S. Fawcett, Prof. and Mrs. P. H. Rolfs, Dr. Berger, Prof. and Mrs. John Scott, Prof. and Mrs. Vernon, and Mr. Richardson, of the University and Experimental Farm staff, and F. P. Henderson and W. N. Wilson.

The children of Prof. and Mrs. Rolfs accompanied them, and after a brief visit at Daytona will proceed to Miami, where they will be guests of friends for some time.

## NEW ROUTE TO NEWBERRY.

Maddox & Vidal Establish Automobile Line to That Progressive Town.

Maddox & Vidal, who expect soon to open a garage in this city, have inaugurated a regular schedule between Gainesville and Newberry, the first trip being made Wednesday with great success.

The schedule is a convenient one, leaving Gainesville at 10:30 a. m. daily except Sunday, and returning, leaving Newberry at 2:30 p. m. The run is made in a little more than an hour in a big steamer car, and the convenience afforded will no doubt make the route a popular one.

An announcement of this new service will be found elsewhere in The Sun.

## THE CIRCUIT COURT.

Wednesday Was a Dull Day, Only Few Cases Being Disposed Of.

Wednesday's session of the Circuit Court was a very dull one, only a few civil cases of minor importance being disposed of. The civil docket, in one way or another, has been about cleared for the term, and the probabilities are that court will adjourn today until the first Monday in June, being June 7. At that time the criminal docket will be taken up, and the cases of Davidson and Kelley and Duncan Jordan, all being charged with murder, will be disposed of.

The case of the State vs. the Martin boys and George Powers, charged with rape, has been set for June 12.

The health of Gainesville is exceptionally good at the present time. This may be attributed both to its geographical location and to the city's first-class sewerage system.

### A CORRECTION.

Error in Report Court Proceedings Which Reflected on Mr. English.

J. W. English, the vegetable grower of Tacoma section who is well-known throughout the county, writes The Sun the following:

"I see in your paper of the 14th inst. that your reporter made a mistake in the court proceedings, in the case of J. E. English, who was tried for forgery. The report read:

"Question asked first witness: 'Did you, on November 30, 1908, give this check to the defendant, J. W. English?'"

"This should have read, 'J. E. English,' and you will please correct this through your paper and oblige."

The above is an error which is likely to occur in any printing office, the names and initials being so similar, but The Sun is pleased to make the correction.

J. E. English, the defendant referred to, was a colored man.

## Beautiful Spanish Dancer Gives Praise to Pe-ru-na.

NERVOUS prostration is usually the result of a vocation which requires a continual strain on the nervous system. In such cases it would be wise if a change of vocation could be made. But this is not always possible and a good tonic becomes a necessity. Peruna is a tonic that invigorates without producing a drug habit.

Peruna is not a beverage nor a bitters, but an honest, straightforward tonic that increases the appetite and encourages digestion.

There is a great demand for tonics during the depressing heat of summer, and especially in countries where hot weather is very prevalent.

Such a demand is exactly met by Peruna.

Miss Pilar Monterde Praises Peruna as a Tonic.

A letter sent to the Peruna Drug Mfg. Co., from the popular Spanish dancer, Miss Pilar Monterde, is as follows:

Teatro Principal, City of Mexico, Nov. 3, 1905.  
The Peruna Drug Mfg. Co., Columbus, Ohio, U. S. A.  
Gentlemen: Having used your justly celebrated remedy, "La Peruna," for some time, I have the pleasure of informing you that I consider it the best tonic I have ever used.  
It is a wonderful fortifier of the nerves after exhaustion and it increases the vitality of the whole body, and in my own case has produced the most complete and permanent restoration. It is also pleasant to the taste.  
I do not hesitate, therefore, to recommend this remedy to all women as the best and most pleasant tonic that they can possibly take.  
Yours very truly,  
(Miss) P. Monterde.

## FORMER MARSHAL IS NOW IN TROUBLE

Be Given a Hearing Today.

From Wednesday's Daily Sun:

According to telephone information from Newberry, C. H. Slaughter, well-known throughout the West End, is in custody at Newberry charged with the embezzlement of funds of that town while he was acting in the capacity of town marshal.

Slaughter is a comparatively young man, and was honored by the people of Newberry by the election of marshal a few months ago, and it was while in this position that it is alleged he misappropriated money collected for fines, etc., belonging to the town.

Slaughter was arrested by Deputy Sheriff George Wynn at the home of relatives near Newberry. He will be given a preliminary hearing before Justice Ira J. Carter at Newberry today.

The Southern Baptist Convention, which has just adjourned at Louisville, strongly endorsed the fight for prohibition in the South.

### DIED IN PRISONER'S CELL.

Demented Negro Found Dead by Jailor Torlay Sunday Afternoon.

Some excitement was occasioned, especially among the superstitious negro prisoners, Sunday afternoon, when Jailor Torlay went to a cell occupied by Will Shuman, a demented negro, and found the unfortunate man's lifeless body lying upon the floor. Jailor Torlay spoke to the man, and, receiving no response, approached him, when he made the ghastly discovery.

Shuman was brought to this city from Dutton, where he had been employed in the phosphate mines, about a week ago. The man was unconscious when brought here, and has remained in that condition ever since, even to the extent that it was necessary to force food down his throat. He was not only a mental, but a physical wreck.

The remains were turned over to the Thomas Undertaking Company, and the unfortunate man was buried Monday morning.

### CATARRH MICROBES

A Dead Microbe Is the Best Microbe.

Hyomel Kills Them All.

Hyomel (pronounced High-o-me) is a killer of catarrh germs, because when you breathe it in, its antiseptic and germicide properties reach every nook and crevice of the mucous membrane from the mouth and nose deep into the lungs.

Hyomel brings the Australian forests of pine and eucalyptus to your home. It is made of the active principles extracted from these trees.

No one who lives in or near these forests suffers from catarrh. No one who breathes in Hyomel, the real forest air of Australia, will have catarrh for long after the treatment starts.

If you want to cure catarrh, croup, bronchitis, coughs, colds, asthma, hay fever, or relieve consumption, try Hyomel, the common-sense cure, the cure that reaches the spot.

A complete Hyomel outfit, including a hard rubber inhaler, costs only \$1.00, and extra bottles of Hyomel, if afterwards needed, cost but 50 cents. Guaranteed to cure, or money back. Sold by leading druggists everywhere. Sold and guaranteed in Gainesville by J. W. McCollum & Co.

# SENATOR BEARD CREATES SENSATION IN SENATE

## Attacked Governor's Message Because He Believed It Was Reflection Upon His Dead Father.

TALLAHASSEE, May 18.—Severely attacking the special message on the Wailes claim submitted by Governor Gilchrist last week and charging that he believed that the chief executive has been made a tool of in the matter by former Governor Jennings and Comptroller Croom, Senator John S. Beard, on the floor of the Senate yesterday morning, furnished the sensation of the present session.

Senator Beard has not taken a part in the discussion of the Wailes claim matter prior to this because of his relationship to the Beard estate, which is interested, but he explained his remarks, saying that the Governor had gone out of his way to cast reflection upon his dead father, Col. W. K. Beard.

"He is emphatically an honest man and sincere," said Senator Beard of the Governor, in part, "but of very limited mental capacity. His very honesty of purpose renders him an easy victim and an innocent tool of designing men of greater mental capacity, but of less honesty and sincerity of purpose. Of the subject upon which this message treats Governor Gilchrist has absolutely no greater knowledge than one of the pages of the Senate, and apparently not as much capacity to understand and acquire knowledge of it."

While he was speaking a special message came up from the Governor calling attention to remarks of Senator Beard relative to the message which were entered on the Saturday Journal. In the message he asked the appointment of a committee to investigate the facts on file in the State offices to see if they would not bear out the statements in his message of Friday. He also devoted a little attention to "certain newspapers" which he said had been continually misrepresenting the Wailes matter. He stated that he had asked them in fairness to publish his message on the subject, but that none had up to that time. He stated that in justice of the State his message should be spread on the journal so the people could get at the real facts of the case.

"In conclusion," said Senator Beard, while finishing his remarks, "permit me to say that it is with extreme reluctance that I have discussed this matter and have done so only because the Governor, wantonly, without foundation and without reason reflected upon the memory of Col. Beard, a man the latches of whose shoes Governor Gilchrist was unworthy to loosen."

The Senate voted to place both the Governor's message on the Wailes claim and the speech of Senator Beard on the journal, but this action was reconsidered in the afternoon and it was decided instead to submit both to the special committee and to then spread on the journal so much of each as the committee might recommend.

The Senate chamber was crowded throughout the speech of Senator Beard and his attack on the Governor was easily the event of the session. Opinion is rather divided on the matter.

President Hudson announced in the afternoon the appointment on the committee to investigate the Governor's Wailes claim message of Sena-

tors Humphries, Crill, Baker of Twentieth, Flournoy and Henderson.

### State Uniformity.

Fought steadily through a portion of the morning session and nearly the entire afternoon session, Senator Cone of Columbia county finally pushed his State uniformity of school text-books bill through to third reading yesterday.

The fight was a hard one and it was only by the most diligent work that it was not amended in such a manner as to result in its death.

Senator Johnson took up the discussion, arguing against the bill. He expressed the belief that books would be no cheaper under the plan than under county uniformity.

Senator McLeod spoke for the bill and read a letter from school superintendents of six States favoring the plan.

Senator McCreary, author of the county uniformity bill, spoke strongly against the Cone measure.

Senator Dayton offered arguments against the measure also. He especially pointed out that the educators of the State oppose State uniformity.

The amendment by Senator Dayton providing that the law should not go into effect until approved by county boards was lost, 15 to 12.

The Senate made an amendment offered by Senator Williams providing that the bill should not affect contracts already entered into by county boards.

Senator Dayton offered an amendment excepting the counties of Pasco, Hernando and Citrus, claiming that the law would amount to confiscation of free books owned by these counties.

The amendment lost, 15 to 11.

Senator Dayton offered a number of amendments which were all voted down and the bill then passed on to third reading.

## "UNLOADED" GUN KILLS YOUNG BARTOW BOY

LAKE LAND, May 18.—A horrible tragedy occurred Sunday afternoon at Bartow, when Willie Morrison, an 11-year-old boy of that city, accidentally shot and killed the 15-year-old son of F. B. Terrell.

Mr. Terrell is a wagonmaker of Lakeland, but his family reside in Bartow, and it was while playing with an old gun which they "didn't know was loaded" that the accident occurred. The two boys were playing "soldier" and the little Morrison boy pointed the gun at the Terrell boy, which at once exploded, tearing a hole in the boy's body, from the effects of which he died almost instantly, only living about five minutes.

The Morrison boy is overwhelmed with grief at his terrible deed, while the family are inconsolable over their great and sudden bereavement.

### HAD A BIG TIME.

Colored Churches of the City Combine in Picnic Monday.

From Wednesday's Daily:

The colored churches of the city combined in a grand annual picnic Monday, and those who attended report one of the grandest times of their lives.

Unlike former years, the promoters decided this year not to leave the city limits, and held forth on the local baseball park. The day was passed in games and athletic exercises of various kinds, concluding with a grand match of base ball between two picked teams, which proved quite animated at times.

Refreshments were served, and altogether the day proved an orderly and successful one.

Mr. Wells announces a deal of considerable importance in Archer Tuesday, being the sale of the mercantile business of J. W. Groves to Mrs. H. Maddox, Mr. Groves' daughter. Mr. Groves is also engaged in the mercantile and hotel business at Morriston, which occupies his entire time, hence the transfer of his interests at Archer.

The work of laying the vitrified brick on East Main street is progressing nicely, and at the present rate the block between East Liberty and East Machanic will soon be completed.

This will be the first solid block of vitrified pavement seen in Gainesville, but it is believed the property owners will appreciate this pavement, and that other work of this nature will soon follow.

## Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

#### LETTER TO E. J. BAIRD, Gainesville, Florida.

Dear Sir: Clear pine and pine full of knots are two different things; they are both called pine.

Clear paint and paint adulterated with whitening, china-clay, ground stone, barytes, benzine and water, are different things; they are both called "paint."

It takes less labor to work clear pine than pine knots, and costs less money.

It takes less labor to paint clear paint than half-whitening or half china-clay or half ground stone or half barytes. These mixtures make more gallons, not more paint. There's no more milk in two quarts of milk-and-water than in one quart of milk. If you paint two gallons for one you pay double for labor; and labor costs more than paint.

You know how it is with clear lumber and knots. It's the same with all paint and half-paint.

A day's work is a gallon of paint or half-paint. Apply it to business. Suppose you have two houses, same size; paint one Devoe, the other prominent paint in your town.

It takes 10 gallons Devoe, \$1.75 a gallon, \$17.50 for paint;—\$3 a gallon

for labor, \$30 for labor; whole job, \$47.50.

It takes 15 gallons of that other paint, same price, \$22.50 for paint; \$3 a gallon for labor, \$45 for labor; whole job \$71.25.

And which wears best, clear pine or pine knots? Devoe wears better than that weak paint.

What warrant is there for saying that paint is weak? It takes more gallons. Yours truly,

F. W. DEVOE & CO.
